bombarded by heavy Russian guns, and that one of the shells is in flames. The capture of the city has been one of the main objectives of Russian campaign against Austria, and the theory that it will result in the fall of the empire is not without foundation. GERMANS FACE GREAT DISASTER.

Military critics in the capitals of the allies, according to dispatches reaching London, are convinced that the German invasion of Russia Poland has suffered a check which only the most strenuous efforts of the German commanders can save from degenerating into disaster.

A news report from Petrograd sets forth that the German army is ignorant of the extent of the Russian opposition along the Vistula, or holding the opposition in contempt, threw heavy forces against the Russian center, leaving very thin lines of communication between their wings. This created a situation said to be without precedent in the history of military strategy.

In the meantime the resumption of the Russian offensive resulted in a wedge, driven by the Russian thrust into the German center. If the Germans can hold their lines of communication with their rear, the invaders may be able to withdraw, but they are in a very difficult position.

Advices from Holland report that railway traffic, newspapers and posts in the Brussels region are entirely suspended. It is presumed for the purpose of suppressing news of a movement of German troops to the eastward.

ALLIES IN WEST TAKE OFFENSIVE.

The onset development of the day in the western theater was the renewal of the British naval bombardment of the German base at Goeburg.

According to the French official statement, the German forces in Belgium are on the defensive, and the allies have made progress in the direction of the German base at Goeburg.

Fighting continues in the direction of the German base at Goeburg. The German forces are on the defensive, and the allies have made progress in the direction of the German base at Goeburg.

Opinions differ sharply as to the importance of the offensive movement. It is reported that the German forces are on the defensive, and the allies have made progress in the direction of the German base at Goeburg.

GERMANS WERE MOVED BY THE BRITISH FIRE MAY MEET AT ATLANTIC

But Kaiser's Troops Kept Rushing—Gurkhas Used Swords on the Germans.

London, November 29.—Details of the operations of the British troops at the front from November 23 to 25, are given in reports confirmed today.

On November 23 from a military point of view the British were successful. They even penetrated some of the German trenches, where they wielded their peculiar curved swords with great effect.

The account refers to several instances where the British were repulsed, particularly on November 23, to the south of the river. There, it is said, the Gurkhas did excellent execution at close quarters.

However, there were no exchanges through open spaces in the woods, where the British were repulsed.

Some bodies were picked up only yards from the German lines.

Other incidents taken up in the report are the movement of British troops by motor cars, thus adding to the confusion of the German lines.

HOSTILE SQUADRONS MAY MEET AT ATLANTIC

German Warships Have Left Pacific—Twelve British Ships on Guard.

Montevideo, Uruguay, November 29.—The operations of the British fleet in the south Atlantic appear to have been confirmed today.

It is also rumored that a powerful host of British ships is nearby.

Interruption of British shipping and the outfitting of German merchant ships with supplies were discussed here as confirmatory of reports of the approach of the German fleet, which is now believed to be off the mouth of the River Plate.

The German steamer Patagonia is believed to be in the area.

Sailings of British steamers from Montevideo and the Brazilian port of Santos have been suspended since the steamer Patagonia was sighted on November 23.

COLUMBIA STUDENTS WANT GRID GAMES

New York, November 30.—A move on the part of the board of student representatives for the restoration of football as a varsity sport at Columbia University is expected to be made at a general mass meeting of the university tomorrow. At the meeting, Nicholas Murray Butler will be the principal speaker.

Butler is a member of the board of student representatives and is proposing a resolution that the board be authorized to petition the trustees for the restoration of football on conditions that it be abolished in 1915. It is probable that the suggestion will be adopted.

Organization in use at West Point is given as a model and that the team practice only one hour a day, instead of the three hours now required under the old system. Furthermore, no schedule will be made for the games, if the students plan is adopted. Action will first have to be taken by the university committee on student organizations and athletics and then by the university council.

FEDS TO ANNOUNCE NEW MEN SIGNED

Chicago, November 30.—President Gilmore wrote letters today to every club in the Federal league, directing that they announce soon the names of all new men signed. The object of announcing the names, President Gilmore said, was to instill confidence among the players and to encourage them to encourage those who were thinking of leaving organized baseball for the new league.

It was admitted here today by Federal League authorities that the St. Louis club has made an attractive offer to Phil Plant, of the Philadelphia Athletics.
